

Spread the health.
With a
healthier spread.

Choosing EVOS to cater your event is like giving a giant hug to your guests and our planet!

We select naturally raised beef, natural poultry, and wild caught Alaskan salmon because we know you and your guests will taste the difference. And because it makes a difference.

We make our food with great ingredients, not cheap ingredients. Our Salads? Nutrient rich Organic spring greens and green leaf lettuce. Simple, natural, delicious.

Our Chicken Strips? They're Airbaked™ instead of deep-fried. Sealing in flavor without the excess fat.

It's not just great food we are committed to, but being great people too. By supporting our local communities, our farmers, and by being a leader in sustainability since 1994.

You can find all this goodness packed under a roof that has been made with sustainable building materials and running in part on renewable energy sources. And that is why we have been named one of the greenest restaurants in America.

Great tasting food while making a world of difference. It feels great!

EVOS.COM

USA TODAY

"A quick food place that didn't make you feel sick after you ate."

CBS NEWS

"Eat good while eating fast!"

FOX NEWS

"Eating healthy isn't easy...but we've found an alternative for you."
