passionate about
making a difference.
since 1994.

There are a lot of food options out there. But none as unique as EVOS.

EVOS is delicious All American food. But without the guilt.

Because EVOS Airbakes™ instead of deep-frying. Sealing in flavor without the excess fat.

We select naturally raised beef, natural poultry, and wild caught Alaskan salmon because we know you'll taste the difference. And because it makes a difference.

We make our food with great ingredients, not cheap ingredients. Our Milkshakes? Organic milk and sugar. Simple, natural, delicious. Our Fruitshakes? Real fruit and fruit juices. Again, simple, natural, delicious.

It's not just great food we are committed to, but being great people too. By supporting our local communities, our farmers, and by being a leader in sustainability since 1994. It's not just packaging & building materials that are sustainable, even our special Airbaking™ ovens help keep our planet clean.

You can find all this goodness packed under a roof running in part on renewable energy sources. And that is why we have been named one of the greenest restaurants in America.

Great tasting food while making a world of difference. It feels great!

"A quick food place that didn't make you feel sick after you ate." -USA Today

"Eat good while eating fast!" -CBS News

"Eating healthy isn't easy...but we've found an alternative for you." -FOX

Our first EVOS, 1994

How We got here.

So we were driving around in our beat up 1988 Oldsmobile, looking for something to eat. But not just anything. We wanted a delicious All American meal - and without the side order of guilt.

After driving what seemed like 400 miles, EVOS was born.

We decided to create a place where family and friends could enjoy great tasting All American food made with healthier ingredients and cooked without the excess fat. A place where you could feel great about yourself and the world around you.

That place? We call it EVOS.
